It is a great honour to receive this award from the HKIoD, in recognition for KLN's excellence in corporate governance.

This award also acknowledges the dedicated efforts of the Board and staff. The team have toiled over many years in places of different languages, cultures, religious beliefs and political systems. Our journey has challenged us to move out of our comfort zones, and in the process, strengthening our core belief: quality governance is twined with operational excellence, ensuring sustainable value to customers and shareholders.

We are grateful to the awards committee for this encouragement. We remain committed in upholding our best practices in corporate governance. This will continue to drive KLN's vision to become Asia's leading logistics services provider, enabling us to maintain our competitive advantage to capturing opportunities in different markets globally and along the New Silk Road, as well as creating long-term value for our shareholders and stakeholders.
