## **Speakers**

**Mr. George Leung,  
HKIoD Training Committee Member**

Mr. Leung is a Fintech specialist with over 16 years of experience. He started his career as a quantitative analyst and became an early investor to quantify economic, environmental and governance factors into investment analysis in Asia. Later, he is responsible for risk management and compliance functions at various financial institutions. He is now an active investor and consultant in Fintech area which includes a payment technology company focusing on AML monitoring system.

**Mr. Ryan Fung,  
Executive VP, Shanghai Commercial Bank**

Mr. Fung has over 20 years of management experience in the banking and financial industries, with a solid track record of entrepreneurial leadership and delivering substantial and sustainable results. Prior to joining Shanghai Commercial Bank, he was the Chief Executive at Ping An OneConnect Bank ("PAOB") – a virtual bank which plays a vital role in the development of Hong Kong's financial sector with a mission to create a virtual banking ecosystem and promote financial inclusion in Hong Kong. Before PAOB, he worked for Standard Chartered Bank, accumulating a wealth of experience and holding various key positions in Retail Banking, Retail Products and Distribution Network functions across Hong Kong, Greater China and North Asia (GCNA).

**Mr. Harry Chan,  
Founder, Ika Block**

Mr. Chan is the founder of IKA BLOCK. He has over 10 years of experience in information technology and is one of the pioneers in blockchain development in Hong Kong. In 2017, he founded Ika Block, which has developed 300+ solutions with different complexity to enhance operational efficiency for different digital assets.

**Mr. Andre Leung,  
CEO & Co-founder, Aereve ; Committee Co-Chair, Fintech Association of HK**

Mr. Leung is CEO and co-founder of Aereve, an AML/KYC Regtech and ESG startup. Andre studied undergraduate Mathematics at Oxford University and EMBA from Kellogg-HKUST. Armed with technical and business experience gained in the UK and US, Andre recently invented patented NLP-based technology on Chinese characters fuzzy logic.
